

QMS ICD-10 Success Checklist

ICD-10 will affect your software, your documentation, your claims, and more. Use this checklist to help ensure your dialysis facilities have a successful transition to ICD-10.

ICD-10 Checklist

- [Subscribe](#) to the weekly *MLN Connects™ Provider eNews* to receive notification of upcoming MLC Connects videos and calls and the latest Medicare program information on ICD-10.
- Keep Up to Date** on ICD-10 by visiting CMS ICD-10 Website for latest news and resources to help you prepare. Sign up on [CMS Website](#).
- Watch training videos on [ICD-10 Coding Basics](#) from CMS to prepare and read the [ICD-10-CM Official Guidelines for Coding and Reporting](#). This states the instructions and conventions of the classification of each code take precedence over guidelines.
- Look over [ICD-10 Implementation Timelines](#).
- Take a look at our list of other QMS resources for coding, ICD-10 list of diseases and injuries, procedural codes, and more.
- Staff Training:** QMS Clients should make sure their staff reviews the QMS Client Checklist and watches QMS webinars located on QMS Website under Client Portal → Webinars.
